Lord's Supper.—The manner and method of observing the Lord's supper has been one of the great battle points of religious belief. Peoples have again and again found in it the causes of prolonged and bitter struggles. Just how this, the most rich in the tokens of affection and peace, has caused so much wrangling, and how it has gradually evolved from the evening meal to the formal observance of today will be the theme Sunday evening in the First Presbyterian church.

## To the Theater-Going Public

I want to make a frank statement with regard to prices at the new Ogden theater. Some complaints come in that we charge more for attractions that play in Salt Lake than they do there. The attractions that play in the Salt Lake theater have exactly the same prices as here. The Salt Lake theater plays only one or two nights of any attraction. We have but one night of any show. At the Colonial theater, Salt Lake, it is different. It is known as a week's stand. The prices are regulated accordingly, and are fifty cents cheaper in the Salt Lake or Ogden theaters. One can readily see why the jumping from town to town every day is an enormous expense, and we cannot expect the same prices. We reserve a very few seats, however, at \$1.50—just enough to comply with the contracts made by the booking agents. Out of nearly 500 seats on our lower floor but 150 are sold at \$1.50—just enough to comply with the contracts made by the booking agents. We are trying to treat the public fairly and will always do the best we can to protect its interests.

WILLIAM ALLISON,  
Manager Ogden Theater.

## BIG CONTEST IN THIS PLACE

Lovers of the manly art of boxing, are all aglow today with the hope, and fond expectation, that the Jeffries-Johnson world championship contest will come to Ogden. It is argued, by those who pretend to know, that Ogden is the most feasible point of all yet mentioned for the contest. It is also maintained that there would be no difficulty in raising the required funds to land the bout here, and that Ogden would be amply prepared to entertain the large crowd that would gather to see the boxing.

Mr. Rickard and Tom Painter stopped off in the city last evening on their way home from Nevada, and they gave assurances that if Salt Lake does not care for the Jeffries-Johnson contest, it can be brought to Ogden. Mr. Rickard is determined to have the contest pulled off in Utah, if possible, and he seems to be equally determined if it cannot be held in Utah, it will go to Nevada.

Mr. Rickard is quoted in Salt Lake today as saying: "You can say for me that I still believe that the boxing contest will be held in Utah, and not in California. And if the fight is held in Utah it will be held in Salt Lake, the hospitality and generosity of the Ogden people notwithstanding. And you can say positively that if circumstances prevent the contest being held in Utah, and I am compelled to pull it off in San Francisco, no California will have charge of the management. I will manage the Jeffries-Johnson affair myself, and if I am refused a permit in San Francisco I will pull off the scrap in Nevada. This is final."

But, notwithstanding this alleged statement, Ogdenpeople who are interesting themselves in the matter, say that if Salt Lake does not decide today to have the contest pulled off there, it will surely come to Ogden. It is thought by a good many that the political entanglements and friction in the state capital are such that it will be quite impossible for the factions there to agree long enough to make arrangements for the contest.

It was reported here last evening that Tom Painter will referee the big boxing match and that he is unalterably in favor of Ogden as the battling ground.

## FOOTBALL TEAM FOR 1910

"Victory for 1910," was the expression with the high school football boys at a banquet given in their honor at the Reed hotel last evening, and there were strong resolves that such would be the inscription upon the banner this year. The spirit of victory was so strong with the husky lads, that no one thought of a chance for defeat.

It was a fine lot of young men that gathered around the festive board last evening to partake of the good things of the season. Some of them were members of the team of 1909, others being new blood for the fray this year.

When Fred Stone was elected captain of the team for this year he was cheered to the echo by sixteen strong throats, and the high school yell almost raised the roof of the hotel.

Principal Cross acted as toastmaster and he called upon a number of the boys to voice their sentiments. There was not a faint heart in the whole bunch, even Superintendent Mills and Principal Cross growing enthusiastic in expressions of "victory in sight."

Coach Brown stated that the high school this year had a fine aggregation of young men in the team, and that he could see no reason why the Ogden lads should not vanquish every foe. Captain Douglass of the team of last year, Ralph Johnson, Stephen Keogh and the newly elected captain, Fred Stone, voiced the same sentiments, all expressing the idea that training should be given at the earliest possible moment, and that "no stone should be left unturned" to get into winning condition. The present lineup of the team is as follows:

Ralph Johnson, left end; George Sample, left tackle; Charles Smith, left guard; Walter Smith, quarterback; Cheeklets, right guard; Mortimer Watson, right tackle; Paul Oldham, right end; Dan Moran, quarter; Fred Stone, captain, left half; Lawrence Evans, right half; Royal Douglas, full back; Edward Smythe, Ploys Smith, Pierce Meyer, substitutes.

## MORE COAL FOR THIS CITY

Most of the coal dealers of the city are quite cheerful today because of the relieved condition of the coal situation. A number of them state that with the supply that came into the city yesterday and this morning they have been able to supply coal in limited quantities to all the people who had ordered coal from them, and that many who had never before dealt with them had been accommodated with a supply of fuel.

There are some yards in the city today, however, that have no coal and there is but very little of it in any of the yards, but the deliveries of yesterday so lessened the demand that it is expected that the coal that will arrive daily from this time forward will be sufficient to supply the immediate needs of the consumers.

The moderated condition of the weather has had a great deal to do with relieving the distress. The temperature of yesterday and of today is so high that but very little coal, comparatively speaking, is required, except for cooking purposes.

The railroad people state that they are satisfied that they will be able to keep plenty of coal in the city for consumption.

Seven cars of coal for Ogden reached Salt Lake over the Rio Grande this morning and their arrival in Ogden this evening will once more make Ogden coal happy.

Veals you may bring in either live or dressed. Access to our plant is now convenient since the construction of the viaduct.

OGDEN PACKING AND PROVISION COMPANY.

## DAMAGE TO THE CLARK ROAD

E. G. Tilton, chief engineer of the San Pedro, Los Angeles & Salt Lake company, is in Salt Lake today having examined the damage caused to the Clark road by the recent floods in Nevada. Mr. Tilton says:

"It is no exaggeration to say that the damage caused was the greatest in the history of railways in the United States."

Mr. Tilton made to the Salt Lake officers of the railroad a verbal report of his observations which will be followed by a written one.

It is understood that Mr. Tilton will advise against rebuilding the old route but will recommend the construction of a new line around the Meadow Valley wash.

## RIVERS ARE WITHIN BANKS

While the snow and ice of the city are melting rapidly, the weather has not yet been warm enough to cause any perceptible rise in the water of either the Weber or the Ogden river. The temperature in the city during the day has ranged from 30 to 43 degrees above zero, and at the mouth of Ogden canyon the mercury has reached the 40 above zero mark.

Attorney M. C. Davis passed through Ogden canyon today in a sleigh and he says he never saw finer sleighing in any place. The snow is deep enough and there has been enough free moisture in it to cause it to pack solid, rendering the highway a perfect glare of ice and snow. It will be a number of days, even under a high temperature and bright sun, before the snow in the canyon disappears.

## SPRINGVILLE MAN COMMITTS SUICIDE

Springville, Jan. 14.—Financial troubles together with melancholia, caused by the death of his wife in the State Mental hospital at Provo a short time ago, prompted John W. Streep, an old-time citizen, and formerly a prominent stockman of this place, to commit suicide by shooting himself through the heart with a .32-calibre rifle, shortly after 9 o'clock this morning. Death was evidently instantaneous.

The lifeless body of Mr. Streep was discovered by Frank Martin, the man with whom he boarded. After the discovery of the corpse an inquest was held, and Acting Coroner Don C. Johnson found that he had taken his own life.

Mr. Streep accomplished his end by placing the muzzle of the rifle to his breast and discharging it by pushing the trigger with a stove poker. When found he was lying on his bed in his night robe, and it is thought that he was in a sitting position when he fired the shot. The bullet passed through his body and lodged in the wall at the back of him, thus indicating his posture when he discharged the gun.

Last week, Deputy Sheriff Parley P. Pratt levied on four head of horses, and twelve head of cattle belonging to Streep, to satisfy a judgment against him in favor of the Spanish Fork Co-op. He was 65 years old.

## REV. M'CREEERY ADDRESSES TEACHERS

Weber County Teachers' Institute was held in Sub-High school, Supt. Eggerston presiding, today.

Teachers received the half-month's pay today.

Rev. McCreery of the First M. E. church was introduced to the teachers and addressed them on the subject of "Conscientiousness in One's Work."

He dwelt upon the necessity of the workman of every profession feeling that his is the best job and he the best fitted for it. Be conscientious in the little things—they are counted either for or against your character and leave their effect. The greatest giant is the one who has overcome the greatest difficulties. Tomorrow's difficulties may be overcome by overcoming today's. Do not be a knocker. "To thyself be true; and dare to do what you ought to do. Have ideals and be true to them. Be true to yourself for the children's sake. If teachers are religious the children will get it without being taught."

Low wages brings small teachers. The unconscientious teacher carries an unnecessary burden.

Mr. Green gave his methods, proving their ability in the multiplication table. He advised, "Take time to yourself."

Principals are to meet Saturday, January 29, with the superintendent on grading for grammar grades. Teachers were instructed to select reading for the next two weeks and to let it be of the explosive form.
